

Memo for: DD/S

Subject: Reimbursement for Loss of Personal Funds Occasioned by Change
In Orders [redacted]

Inspector General

1st Ind.

To: Inspector General

While it is true that [redacted] was asked to change his plans because of the requirements of project [redacted] I do not feel that this fact distinguishes his case from others when employees are asked to extend their tours of duty.

Furthermore, I note that his principal claim is for rents that might have been received, rather than actual out-of-pocket expenses. To reimburse an employee for income which he did not receive would in my judgment be a dangerous precedent.

Accordingly, I have concluded that I cannot approve the recommendation in paragraph 4 above.
